WORK EXPERIENCE

UI/UX Designer - Andersen Germany GmbH September 2025 – Present

Berlin, Germany - Deployed across three client engagements spanning platform redesign, e-commerce redesign.

Project 1 - Platform Redesign (~2 months)

- Joined an in-progress project and triaged existing UX debt, distinguishing issues requiring full redesign from incremental polish.
- Restructured information hierarchy across multiple pages, improving scannability and content flow.
- Strengthened hierarchy and structural design skills through repeated hands-on application across various client projects.

Project 2 - E-commerce Platform (Shopware) (~2 months)

- Delivered a full design overhaul under a tight 2-month deadline, unifying visual language across all touchpoints.
- Built a design guideline covering color, typography, and brand identity to ensure long-term consistency.
